

FOR IMMEDIATE RELEASE

AmeriPro Health Expands Services in Michigan with Acquisition of Rapid Response EMS

AmeriPro Health will provide ambulance services in Detroit, Southgate, Highland Park, Hamtramck, & River Rouge.

ATLANTA - [AmeriPro Health](#) (“AmeriPro” or the “Company”), an Atlanta-based leading provider of patient logistics and last-mile healthcare delivery services with operations in seven states, today announced it has acquired Rapid Response EMS of Michigan.

With the acquisition of Rapid Response EMS, AmeriPro Health now provides its customizable suite of patient-centric 911, inter-facility medical transportation, and critical care transport services to several cities in Michigan.

"We're thrilled to bring AmeriPro's innovative last-mile services to Detroit, Southgate, Highland Park, Hamtramck, and River Rouge," said Suhas Uppalapati, CEO of AmeriPro Health. "AmeriPro is steadfast in our vision to revolutionize patient logistics, and this transaction is consistent with our commitment to providing access to unmatched patient health services to members of these communities – from institutional partners and other local hospitals to health plans and employers."

AmeriPro recently announced a growth partnership with Whistler Capital Partners to accelerate the Company's expansion and continued tech-enabled innovation in the patient logistics market. Today's announcement builds upon that momentum and demonstrates AmeriPro's continued strategic initiatives to differentiate itself in the market as the partner of choice for delivering sustainable transportation solutions, prioritizing patient safety and experience, and driving innovation across the industry.

Founded in 2018, AmeriPro is a fast-growing, tech-enabled, medical transportation and patient logistics platform that serves a diverse group of leading health systems and communities across Florida, Georgia, Indiana, Kentucky, Michigan, Mississippi, South Carolina, and Tennessee. As the preferred employer of paramedics and EMTs in its operable markets, AmeriPro has cultivated a unique culture centered around first responders, offering top-tier compensation and training that enables paramedics and EMTs to prosper, expand their knowledge, and focus on what they do best: saving lives by providing best-in-class emergency transport services.

About AmeriPro Health

AmeriPro Health encompasses a diverse range of healthcare companies devoted to optimizing patient logistics and last-mile healthcare delivery. Our extensive portfolio comprises emergency and critical care services, non-emergency medical transportation, patient coordination, and personalized home-based care solutions, providing a seamless patient care journey. By covering the complete spectrum of patient care, we seek to ensure enhanced patient outcomes, more efficient healthcare processes and timely, location-appropriate access to care. At AmeriPro Health, we provide an adaptable suite of paramedic-centric, value-driven services, tailored to meet the needs of communities, health systems, health plans and employers. As a pioneer in last-mile healthcare, our strength lies in our capacity to attract and retain paramedics and EMTs, anticipate future needs, swiftly adapt and deliver on the evolving demands of our clients.
